Our Services: Commercial

We offer services in drywall partitioning, light-weight ceilings, flush-plaster ceilings and bulkheads, kitchens and canteen areas, counter fittings and furniture, various floor finishes, air conditioning, network installations, electronic access and lighting. Our design services range from eye-catching features in the reception and boardroom areas, to cost efficient finishes in the overall workspace. Axle Projects also offers a maintenance service for the smooth operation of your offices after the initial build.

Our Services: Residential

With varying degrees of experience in the domestic market, and knowledge in structural solutions to achieving goals of design aspects, Axle Projects is sensitive to your living standards and requirements. Our architectural background gives Axle Projects the advantage of advising on the practical utilization of space while keeping in line with the design parameters. With expertise covering a vast scope from engineered raft foundations, all wet works and structural concrete, roofing and a variety of specialized finishes, you can be sure that Axle Projects will deliver a complete and professional product to satisfy your needs.

Our Services: Retail

Axle Projects has built various retail stores including pharmacies, health spas, art galleries, fast food stores, restaurants and cocktail lounges. All services are implemented in the project, depending on the varying requirements of the store. Our service includes the sourcing and installation of the necessary equipment and operational tools for your business. Recommendations and advice is offered on what finishing materials work better to ensure durability through high traffic volumes and unusual amounts of wear and tear. With extensive experience in the construction of high-profile restaurants, small food outlets and evening entertainment venues, we understand the requirements to ensure efficient operation of a bustling retail store.

Our Mission & Values

- *Adhere strictly to the sector specific guidelines that apply to our business as well as to the measures set out in the Directive and Regulations by the Disaster Management Act and Health & Safety in the workplace directive.*
- *Ensure our extensive knowledge and practical experience in the South African building industry is used to deliver above quality projects throughout the construction sector.*
- *Engage and communicate with both local and international construction companies on an on-going basis to ensure that Axle Projects are aligned to current trends and innovative solutions.*
- *Evaluate and measure all projects in a qualitative and quantitative manner to ensure overall objectives are being reached in a sustainable manner.*
- *Ensure we share our team's extensive knowledge and experience in the South African construction industry with every client while using our impressive track record to deliver projects on time and within budget.*
- *Facilitate growth and development within our own teams to ensure they too are able to grow and develop their own internal strength and knowledge of the industry.*

RESPECT | TRUST | INTEGRITY | PASSION | EXCELLENCE | GROWTH | ACCOUNTABILITY | INNOVATIVE SOLUTIONS

Our History

Axle Projects was founded by John Roussouw over 20 years ago. After receiving his diploma in architecture at Witwatersrand Technikon, and years of experience in all aspects of the industry, Roussouw took the decision to start Axle Projects. A company that has specialised in construction projects of all sizes and has built an experienced and accountable team of skilled professionals. Axle Projects' infrastructure and experience has grown through their attention to detail and complete solution offering. Their contracts have ranged from shopping mall stores, food outlets and restaurants, industrial renovations, commercial construction, and residential projects of varying sizes. Axle Projects both employs and sources all the required professionals including architects, engineers, and designers, while ensuring every element of the project is over delivered on. In doing this, Axle Projects has grown into a professional sought after project management/construction concern that strives to uphold their very high level of service, reputation, and delivery for years to come.

Our Gallery

- AON

Axle Projects cc is a company that is always willing to assist when in need, they always provide a very positive attitude towards the client and his needs, very helpful in the recommendations, costing and services provided during the process of costing(quotations) and during the project, when delivering a service, management involved with the day to day monitoring of the process during the project.

Danie Roestof, China Construction Bank

I have worked with Axle Projects since 2008 on 4 projects, including residential and office refurbishments. I have found John to be trustworthy and dependable in all of our dealings - rare qualities in the construction industry. Building projects invariably have their upsets and delays - in all instances in my dealings with John Roussouw and his company, he provided good communication, resolved issues as they arose in a professional manner and followed through on his promises. I have referred Axle Projects to friends, and they too have experienced positive results

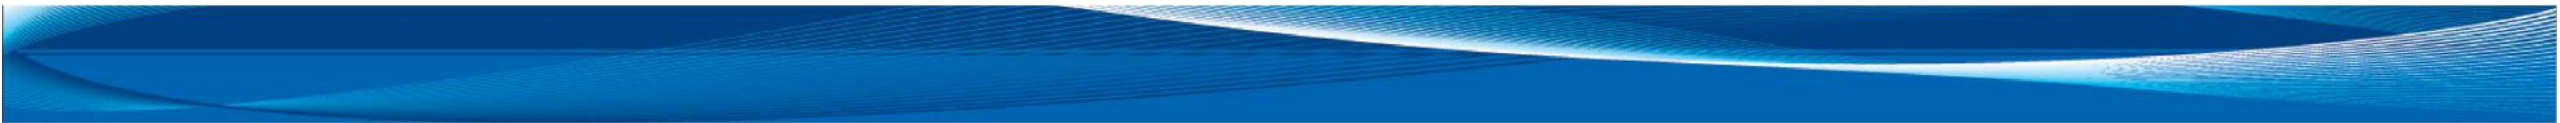

Nicole Honey, Entrepreneur Magazine

We appointed Axle Projects to do a major renovation at our property in Hurlingham Manor in 2015. The whole exercise took about 6 months which we had planned for and had moved out of the property. We met with John and his team on site on a regular basis and any changes or problems were discussed and agreed to. John kept us updated on the financial position on a regular basis and any additional costs were agreed to before the costs were undertaken. The whole process ended up being quite a happy experience as John had come up with a couple of excellent ideas on how to improve what our architect had drawn. I had heard of the nightmares that people have had with their builders but that was not our experience with Axle Projects. If you are thinking of building or improving your property I can recommend John and his team.

Mark Mitchley, Fine and CountrySA

More than often these types of projects end up being a disaster and I'm very pleased that we managed to keep it together albeit very turbulent at times. I'm very satisfied with the final results and general quality of build and I believe that you will be very successful if you continue to focus on the fine details. Your honest approach and amicable manner make it a pleasure to work with you and I wish you well in your future endeavours. Sounds like I'm saying goodbye but quite the contrary. I hope that we can continue to work together and hope to refer more business to you so if you ever need a referral please do not hesitate to contact me and 'your' school remains at your disposal for viewing and showcasing whenever you like. You are welcome any time.

Nuno Martins, The Animation School

Thank You

We look forward to working on your future projects.
